A CHALLENGE
 This paper notes with interest the great number of towns and cities in Virginia asserting the public service companies and installing their own power plants. The process keeps up in a few years the larger public service companies will be cut to the point of almost having to go out of business.
 There is on our desk an article showing the varying percentages of rural electrification in the various counties of Virginia. To us it is an amazing revelation. It shows that most Virginia counties including our own, are very backward in electrification.
 The paper contends that the rural population is entitled to all the joy and comfort of a high standard of living. We honestly believe that the chances of electrifying rural homes receives a set back when a few sets up its own power plant, because the funds are lacking, and the project becomes localized in the corporate limits.
 We challenge the present power companies to save themselves and the people by undertaking a program of extending their lines into the rural communities.
 Such a program would elevate the standard of living in Virginia as much as any one thing we know, and would be the deciding argument to save the business of our country from municipal competition.
 At later intervals we will discuss the matter of rates as a factor in the problem, but right now we do say that the present system of rural supply points away from any likelihood of ever making it possible.

New Kidneys.
 It would save you a great deal of trouble and expense to get out of bed at night. Night, Nervousness, Headache, Backache, Stomach Trouble, and all the other troubles that come from a weak kidney. The only way to get rid of them is to get a new kidney. The only way to get a new kidney is to get a new kidney. The only way to get a new kidney is to get a new kidney.

Better Breakfasts
 IS your breakfast a builder-upper? It should be. It should do for you what the hand-ful of food that is served between the first and the last of the day should do for you. It should build you up to get the most out of the day.
 Plan, first of all, variety in your breakfast. Consider foods which are energy-giving and delicious which are most easily digested. See that your coffee is not just some thin soup but the best possible cup of coffee. Try it rammed packed so that it is so fresh and full-flavored and then brew it with exactness—and enthusiasm. Here is a building-up menu:
Apricot and Grapefruit Compote
 Cereal with Cream
 Eggs Poached in Milk on Toast
 Hot Cocoa
 Coffee
 Apricot and Grapefruit Compote: Cut one cup of canned apricots and one cup of canned grapefruit in pieces suitable for serving. Add the apricot and grapefruit to the milk and pour over one cup of milk. Chill overnight. This compote serves five persons.

How your MONEY WORKS FOR YOU IN A Checking Account
 When you put your money in a savings account you get interest on it. In a checking account you get service for it—and let the bank draw the interest. In return for this interest the bank gives you privileges worth far more to you than the interest itself.
 When you maintain a balance commensurate with your use of your checking account privileges, the bank will be reimbursed for the expense of serving you. Otherwise, the bank may properly look to you to meet this expense.
 Money in a checking account is an investment that pays you real dividends.

SALESMEN WANTED:
 MAN WANTED for Rawleigh Road of 800 families. Write: John Rawleigh, Dept. VAA-7-SA, Richmond, Va. Jan. 19-24p
LOST: Gold ring, with blue seal, lost Monday P. M. between my residence and Mrs. Bledsoe's. Reward \$10.00. Write: Mrs. Richard L. Burke, Appomattox, Va.
STOLEN: Farm of 50 acres or more, formerly Richman place, 2 miles east of Appomattox on route 400. Dwelling and outbuildings. Call at service station on farm.
AGENTS SERVICE: Its value is often overlooked by the policyholder because it has been rendered in too unobtrusive fashion.
 We see the work of many agents and many of them give their assured service that is literally beyond price.
 There are a few who do not give value received.
 The competent agent who has rendered a full measure of service—and has impressed that upon his assured—has little to fear from competitors who sell their wares on price, who dangle a prospective "savior" of their prospect's eyes and ears, fully aware of the fact that he will assume to go that "saving."

MISS AMANDA HARVEY
 Funeral services for Miss Amanda Harvey were held last Thursday at 2 P. M., by Rev. R. L. Fruit, of Brookland. Interment was in the family cemetery.
 Miss Harvey was born in Appomattox county, the daughter of Mr. and Mrs. William P. Harvey. When she died she had reached the age of 38 years.

We want you to know that we appreciate your patronage. We know that your prosperity will be reflected in ours. 1934 was a good year and we pledge you our support to make 1935 a better one. We hope that you will identify yourself with us, 'THE HOME OF THRIFT' and join with us.

With extra caution for the safety of our depositors we will be forced, as well as all other banks, under the recent Federal Reserve Bank's ruling to reduce our interest rate from 3 to 2 1/2 percent on February 1, 1935. This insures 'return OF investment rather than return ON investment.'

The U. S. Government Check Tax of .02 has also been removed. This, we hope, will induce you to use the facilities of our bank in a larger way.
